

## SolarInvert Energy Solutions

# Djibouti produces polymer lithium battery packs

**TAX FREE**

### Product Model

HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

### Dimensions

1600\*1280\*2200mm  
1600\*1200\*2000mm

### Rated Battery Capacity

215KWH/115KWH

### Battery Cooling Method

Air Cooled/Liquid Cooled

## Overview

---

What is a lithium ion battery pack?

A battery pack consists of multiple cells connected in series or parallel. How to make lithium-ion batteries?

It's always been an interesting topic. The production of lithium-ion batteries is a complex process, totaling Three steps. The cell sorting stage is a critical step in ensuring the consistent performance of lithium-ion batteries.

How a lithium ion battery is made?

The production of lithium-ion batteries is a complex process, totaling Three steps. The cell sorting stage is a critical step in ensuring the consistent performance of lithium-ion batteries. The lithium-ion battery manufacturer should have a strict gap standard of less 5mv voltage gap, less 15mΩ internal resistance, and less 5mAh capacity gap.

What is advanced lithium battery pack design?

Advanced Lithium Battery Pack Design: These custom batteries are made when the customer has special requests for temperature capabilities, dimensions, discharge current, and/or battery cycles. In this case, our chemistries, enclosure, and battery management system (BMS) experts are required to monitor each project closely.

What is battery pack production?

In conclusion, Battery pack production is a complex and multifaceted process that requires meticulous attention to detail, strict quality control, and a commitment to safety.

## Djibouti produces polymer lithium battery packs

---

### PLS Battery Co., Ltd.

PLS Battery is a professional battery manufacturer since 2013, main products are lithium polymer, lithium ion, lifepo4 battery cells and custom battery packs.
