

## SolarInvert Energy Solutions

# Does Jamaica s photovoltaic power station have energy storage

## Overview

---

Will JPS build a solar power plant in Jamaica?

Power utility Jamaica Public Service Company, JPS, is investing US\$300 million to construct Jamaica's largest solar power plant and a battery storage facility, starting this month. The renewable energy facility will replace JPS's aged Hunts Bay.

Should I install a solar energy system in Jamaica?

Installing a solar energy system in Jamaica can be a wise investment for several reasons: Cost savings: Solar energy can significantly reduce or eliminate monthly electricity bills, leading to significant long-term cost savings.

Is Jamaica a good place for solar energy?

Jamaica is also tropical, with relatively stable weather conditions and low levels of atmospheric turbulence, making it ideal for solar energy generation. The average solar radiation levels in Jamaica are estimated to be around 5.5 kilowatt-hours per square meter per day, which is among the highest in the world.

How much do solar panels cost in Jamaica?

The cost of installing solar panels in Jamaica can vary depending on the size of the system and the type of panels used. On average, a grid-tied solar energy system for a typical home in Jamaica can cost anywhere from JMD 1 million to JMD 2 million Jamaica Observer.

Who owns Jamaica's energy grid?

Jamaica's energy grid comprises 789MW of capacity, 80 per cent of which is owned by the JPS. The utility purchases 168MW from independent power producers that are contracted to supply electricity to the national grid, JPS said last month in tender documents to suppliers.

What financing options are available for solar energy systems in Jamaica?

There are many financing options available for solar energy systems in Jamaica, including: Cash purchase: A cash purchase is the simplest financing option and allows the customer to own the solar energy system outright Jamaica Information Service ([jis.gov.jm](http://jis.gov.jm)).
