# Does Uganda have 5G base stations

## Overview

---

Will all MTN sites in Uganda be upgraded to 5G?

Now, MTN Uganda's Chief Network service and Information Officer (CTIO) Ali Monzer says the firm is working to have all the MTN sites across all cities of Uganda upgraded to 5G in the next two years.

Is 5G faster than 4G in Uganda?

Telecom giants MTN and Airtel have rolled out 5G networks in Uganda. In ideal conditions, 5G is up to 100 times faster than its predecessor, 4G. MTN Uganda, one of the leading telecom players in the country has rolled out its 5th generation (5G) mobile mobile network, touting it as a technology that delivers “higher peak data speeds.”.

How will 5G revolutionize the digital landscape in Uganda?

“We are set to revolutionize the digital landscape and redefine the way Ugandans experience connectivity with deployment of 5G sites across all the cities in Uganda with the roll out having started in late July with sites in Kampala at Lugogo and Bugolobi areas, enabling MTN customers in the area the ability to access 5G.

How many 5G base stations are there in the world?

In addition, a total of 819,000 5G base stations have been built by these three telecom giants, accounting for 70% of the world's total. As China has played a leading role in 5G technology, its 5G development has extraordinary significance for other countries.

What is 5G & how does it work?

According to the telecom giant, the 5G technology also delivers ultra-low latency, implying its delivery response is much faster, with fewer delays. Further, it comes with increased reliability and greater network capacity.

Is 5G faster than 4G?

In ideal conditions, 5G is up to 100 times faster than its predecessor, 4G, and drastically reduces data transmission latency to a mere 5 milliseconds, significantly enhancing user experiences across various digital applications.
