

SolarInvert Energy Solutions

Double-glass module market share

Overview

Asia Pacific remains the largest market, while Europe is the fastest-growing region. Market Performance by Type in 2023: Among Double Glass Photovoltaic Modules, Monocrystalline Silicon held 65% of the market share, while Polycrystalline Silicon held 35%. What is the global double glass module Photovoltaic Glass market value?

The global double glass module photovoltaic glass market is projected to reach a value of USD 29.5 billion by 2033, exhibiting a CAGR of 11.5% during the forecast period from 2025 to 2033.

Where is double glass module Photovoltaic Glass used?

The Asia-Pacific region is the largest market for double glass module photovoltaic glass, accounting for over 60% of the global market share. The key countries in the region include China, India, and Japan.

What are the different types of double glass module Photovoltaic Glass?

Monocrystalline silicon and polycrystalline silicon are the primary types of double glass module photovoltaic glass, with monocrystalline silicon dominating the market due to its higher efficiency and lifespan. Key market players include Canadian Solar, Hanwha, Neosun Energy, Sharp, AE Solar, and Amerisolar.

Which region holds the most solar glass market share in 2020?

The Asia Pacific region held almost half of the solar glass market share in 2020. This can be attributed to the existence of leading firms like EMMVEE Toughened Glass Private Limited, Sisecam Group, Euroglas GmbH, Hecker Glastechnik GmbH & Co. KG, and so on.
