Early warning for Madagascar's new energy storage power station

Early warning for Madagascar s new energy storage power station

Journal of Electrical Engineering-, Volume Issue

The excellent performance of lithium-ion batteries makes them widely used, and it is also one of the core components of electrochemical energy storage power stations.

Madagascar energy storage solar power generation

25 MW lithium-ion battery energy storage system. The project is expected

- LiFePO₄ Battery,safety
- Wide temperature: -20~55℃
- Modular design, easy to expand
- The heating function is optional
- Intelligent BMS
- Cycle Life: ≥ 6000
- Warranty:10 years

to be completed in 2023, and will supply power to Rio Tinto's QIT Madagascar Minerals (MM) mine via a 20-year ...
