# East Asia Solar Panels

## Overview

---

Why are US tariffs on solar panels coming to Southeast Asia?

The U.S. government has announced a new tranche of tariffs on solar panel imports from four Southeast Asian nations, in response to complaints from U.S. manufacturers that companies based in the countries are flooding the market with unfairly cheap goods.

What is the largest floating solar power plant in Southeast Asia?

Capacity: 192 MWp The Cirata Floating Solar Power Plant, Southeast Asia's largest floating solar installation, is located on a 250-hectare area of the Cirata Reservoir in West Java, Indonesia. This 145 MW (192 MWp) facility is Masdar's first floating PV project and marks its entry into the Southeast Asian renewable energy market.

Who makes the most solar panels in the world?

The remaining production capacity is taken up by the US' largest solar manufacturer First Solar and South Korea's biggest solar producer Hanwha Qcells. Most of these solar panels are manufactured for export to the US, with Malaysia's installed solar capacity at only 4.2GW.
