

## SolarInvert Energy Solutions

# Eastern European Energy Storage Power Generation Container

## Overview

---

This article dives deep into 2025 European BESS Container Market Trends, unpacking hard data (25.2 GWh of annual installations projected, €13.8B market value) and real-world wins: Germany's KfW-loaned projects leading the pack, the UK's Dogger Bank Wind Farm using Tesla Megapacks to tame renewable "whiplash", and even Dutch communities slashing bills with shared 5 MWh containers. What is the largest battery energy storage system in Eastern Europe?

Stationary battery manufacturer Hithium has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a capacity of 55 MWh. This solar plus storage project was realised completely by EPC company Solarpro, in Razlog, Southwestern Bulgaria, where the project is located.

What is the largest energy storage facility in Eastern Europe?

The project, the largest in Eastern Europe, has been realised by Solarpro, a company specialising in energy generation and storage solutions across Europe. The facility became operational in early June 2024, following the installation of Hithium's 16 energy storage containers, each with a 3.44MWh capacity.

What is the European energy inventory storage dataset based on?

Disclaimer: The European Energy Inventory Storage dataset is mainly based on public data and data from Wood Mackenzie. Wood Mackenzie Limited, subject to any additional data modifications and/or input provided by the EC or any of its authorised 3rd party contributor
