Egypt exports energy storage containers

Overview

How much LNG does Egypt export in 2023?

According to estimates in the Energy Institute's 2024 Statistical Review of World Energy, Egypt exported about 173 Bcf of LNG in 2023; most of the LNG went to destinations in Europe. Türkiye and Spain were the top importing countries by volume, with 46 Bcf and 14 Bcf of LNG originating from Egypt, respectively.

Where is crude oil stored in Egypt?

Egypt has crude oil storage facilities in the Ayn Suknah and Sidi Kerir terminals, which are located at opposite ends of the SUMED Pipeline. The Sidi Kerir terminal, which is located on the Mediterranean, has 27 storage tanks with a total capacity of 20 million barrels.

Does Egypt export natural gas?

Egypt is the only country in the Eastern Mediterranean region with operational LNG export capacity. In addition, it is also the only country in the region that has the potential to import natural gas from other countries in the region and export both domestically produced and imported natural gas as LNG to international markets.

Is Egypt a regional export hub for LNG?

Egypt has sought to position itself as the regional export hub for LNG. Egypt is the only country in the Eastern Mediterranean region with operational LNG export capacity.

What is a large-scale energy storage project?

The project aims at providing the scientific, technological and policy basis required for the development and implementation of large-scale energy storage in Egypt, enabling increased penetration of renewable energy sources in the Egyptian energy system.

Does Egypt still dominate power mix despite surging renewables?

14 U.S. Energy Information Administration, International Energy Statistics database, accessed April 17, 2024. "Powering Egypt: gas to continue dominating power mix despite surging renewables," Rystad Energy, March 19, 2024. 15 Aaron Lawson, et al., "Egypt Megaproject: An Expedited Power Transformation," Power Magazine, accessed April 24, 2024.
