El Salvador s new photovoltaic panels generate electricity

Overview

CECSA, a subsidiary of the National Electrical Transmission Entity (ENTE), has unveiled the first two hybrid power plants in El Salvador, integrating hydroelectric and photovoltaic generation. Situated in San Matías and San Luis, these plants collectively supply 5.1 MW into the national grid. How much solar power does El Salvador have?

From pv magazine LatAm El Salvador's energy regular, SIGET, said this week that the country's total installed PV capacity reached 633 MW by the end of 2023. The nation's total installed power generation capacity now stands at 2.99 GW, with 638 MW from hydropower. Solar accounts for about 21.1% of the nation's electricity mix.

What are the upcoming projects in El Salvador?

The upcoming projects in El Salvador include the construction of a Biogas Power Generation Plant on the Acelhuate River in San Salvador, the commissioning of a photovoltaic plant at the 15 de Septiembre Hydroelectric Plant, and the establishment of a wind park in Metapán, Santa Ana.

What are El Salvador's green energy ambitions?
