

SolarInvert Energy Solutions

Floor mounted battery cabinet dimensions

Overview

What is a floor mount stand?

The floor mount stand is provided as a kit that is purchased separately from the SolarEdge Home Battery. This document lists the contents of the SolarEdge Home Battery Floor Mount stand kit. It provides a guideline for assembling the stand and securing the battery on the stand.

How do you connect a battery to a floor mount inverter?

Hang the battery on the wall mount. Turn OFF the battery. Open the wiring gutter on the left side of the floor mount base and lay the wires in place. Pass the cables through the wiring sleeve on the top left side of the floor mount base and connect to the battery. If installing more than one battery per inverter, use branch connectors.

How do you mount a battery holder?

Loosely screw the M8 (1/2") nuts onto each back holder and base studs to hold the back holder in place. Fully tighten at 17Nm/150 in-lb to finally secure the back holder. Hold the wall mount with the front facing you and position the mount on the securing studs of the back holder's battery mounting bracket.

Can the SolarEdge home battery be floor mounted?

The SolarEdge Home Battery can be floor mounted with each battery secured in a floor mount battery stand. The floor mount stand is provided as a kit that is purchased separately from the SolarEdge Home Battery. This document lists the contents of the SolarEdge Home Battery Floor Mount stand kit.
