

## SolarInvert Energy Solutions

# Georgia Outdoor Communication Battery Cabinet Processing Energy

## Overview

---

Why do Georgians need battery storage systems?

Battery storage systems part of plan to add renewable energy and help ensure reliability for Georgians.

When will Georgia's battery storage system come online?

The battery system is expected to come online as early as 2026 and is subject to regulatory approvals. “As we continue to build Georgia’s clean energy future, battery storage systems play a vital role in how we will continue to serve our customers with clean, reliable energy for decades to come.

What does Georgia Power do?

Georgia Power provides electricity to 2.7 million customers in all but four of Georgia’s 159 counties. The company is committed to delivering clean, safe, reliable and affordable energy for every customer, and works with the Georgia Public Service Commission (PSC) to ensure it can meet Georgia’s future energy needs.

Which Georgia Power Bess projects are underway?

Other Georgia Power BESS projects underway include a 65 MW project in Talbot County (Mossy Branch) and a 13 MW project with the US Army at Fort Stewart near Savannah. Form Energy is an American technology company developing and commercializing a new class of cost-effective, multi-day energy storage systems.

Can battery energy storage systems be integrated into the power grid?

Integrating battery energy storage systems into the power grid requires extensive planning and analysis.

Will a 100-hour iron-air battery strengthen Georgia's electric grid?

Form Energy and Georgia Power continue to collaborate to fully evaluate and demonstrate that the 100-hour iron-air battery technology will strengthen Georgia's electric grid against normal day-to-day, week-to-week, and season-to-season weather variability, in addition to extreme weather events.
