Georgia has BESS outdoor base station power supply

Overview

Does Georgia Power have a Bess project?

Georgia Power is also collaborating with the Georgia PSC to procure an additional 1GW of BESS capacity through competitive bidding and is developing a 13MW demonstration project at Fort Stewart army installation near Savannah, Georgia.

What is Georgia Power's 530mw Bess project?

Stay proactive with real-time data and expert analysis. The largest of the projects, McGrau Ford Phase I and II BESS in Cherokee County, will have a combined capacity of 530MW. By using company-owned land and the same construction company, Georgia Power aims to achieve efficiencies in contracting and construction.

What does Bess stand for?

More From. Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

Which Bess locations are being built in Georgia?

Construction is progressing at four strategic BESS locations across Georgia: the 128MW Robins BESS in Bibb County, which will be co-located with an existing solar facility near Robins Air Force Base, the Moody BESS in Lowndes County, the Hammond BESS in Floyd County and the McGrau Ford Phase I and II BESS in Cherokee County.

Are batteries a part of a Bess electric system?

“As we expand our diverse energy mix to include more renewable energy, which requires careful advance planning and flexibility to accommodate times when that source is not available, these batteries will be an invaluable part of

the electric system.” Construction is currently underway at the following BESS locations:.

How does Georgia Power work with the Georgia PSC?

Georgia Power continues to work with the Georgia PSC to procure and develop BESS projects across Georgia.
