

SolarInvert Energy Solutions

German Valley Energy Storage Equipment Manufacturer

Overview

Why should you choose tesvolt energy storage systems?

TESVOLT energy storage systems are the economical choice for the most demanding applications. Made in Germany, in Europe's first ever gigafactory for stationary battery storage systems, in Lutherstadt Wittenberg. Quality, performance, and optimum interplay between the individual components set our storage systems apart from the rest.

What is tesvolt energy storage system?

State-of-the-art prismatic lithium battery cells from Samsung SDI combined with our patented and TÜV-certified Active Battery Optimizer smart cell control system form the core of our storage systems. TESVOLT energy storage systems are the economical choice for the most demanding applications.

Where does tesvolt manufacture energy storage solutions?

TESVOLT mass-produces these energy storage solutions at its CO₂-neutral Gigafactory in Wittenberg, Rutherford, and delivers them to the global market. For its excellence, TESVOLT has received several awards, such as the German Founder's Award, the TOP 100 Innovation Award and the smarter E Award.

Where is tesvolt building a 65 MWh battery energy storage park?

Recently, TESVOLT announced the largest order in its history - the construction of a 65 MWh battery energy storage park on the outskirts of Worms, Rhineland-Palatinate. Sonnen GmbH is a German company focused on advancing the global energy transition through smart energy storage technologies.

Should large-scale energy storage systems be connected to the medium- and high-voltage grid?

Distribution grid operators are receiving a large number of requests to

connect large-scale energy storage systems to the medium- and high-voltage grid. This has been published by Bayernwerk Netz, Bavaria's largest distribution system operator, and Mitnetz Strom.
