# Germany has 5G base stations for communication

## Overview

---

Does Germany have 5G?

The telco kicked off the rollout of its 5G network in a limited number of cities across Germany at the beginning of July 2019. Meanwhile, Vodafone Germany said its 5G network is already providing coverage to 65 million people across the country, representing nearly 80% of Germany's population.

Which cities in Germany have a 5G network?

Cities with the higher number of 3.6 GHz stations include Berlin, Munich, Hamburg and Cologne. The telco also said it is currently focusing on the provision of 5G in rural areas across Germany via spectrum in the 700 MHz band. The carrier also said it expects to cover the country's overall population with 5G by the end of 2025.

Will 5G reach 99% of Germany's population by 2025?

The European carrier noted that it expects its 5G technology could reach 99% of the Germany population by 2025. The operator also highlighted that more than 80,000 antennas are currently transmitting 5G, of which around 8,000 antennas will be providing 5G in the 3.6 GHz band by the end of 2022.

Does Vodafone have a 5G network in Germany?

Last year, Vodafone Germany launched its 5G Standalone (SA) network in partnership with Ericsson, Nokia, Qualcomm and Oppo. For the 5G expansion, Vodafone is relying on frequencies in the 3.6 GHz, 1.8 GHz and 700 MHz bands in large urban areas, residential areas and suburbs, and rural areas across Germany.

Which telco has 5G in Germany?

For the 5G expansion, Vodafone is relying on frequencies in the 3.6 GHz, 1.8 GHz and 700 MHz bands in large urban areas, residential areas and suburbs, and rural areas across Germany. Also, Telefónica Deutschland/O2, controlled

by Spanish telco Telefónica, said its 5G network is operating over 18,000 antennas in the country.

What is the 5G initiative for Germany?

In the autumn of 2016, the Federal Government launched its 5G Initiative for Germany, which represents a framework for action that is to support the deployment of 5G networks and the development of 5G applications at an early stage.
