Greece has outdoor power supply

**Low Voltage
Lithium Battery**

6000+ Cycle Life

Overview

Do I need a power adapter in Greece?

The standard voltage in Greece is 230V, and the frequency is 50Hz. Devices from countries with different voltage standards, like the United States (120V), may require a voltage converter in addition to a plug adapter. Do You Need a Power Adapter in Greece?

Whether you'll need a power adapter depends on the type of plug your devices use.

What type of plug does Greece use?

Here's a breakdown based on travelers from different countries and continents: In North America, the standard plug types are Type A and Type B, with a voltage of 120V. Since Greece uses Type C and F outlets, you'll need a Type A/B to Type C/F adapter.

What type of electrical outlet does Greece use?

Greece primarily uses Type C and Type F electrical outlets. These types are common in many European countries. Also known as the standard "Euro" plug, Type C outlets have two round pins. Also known as "Schuko," Type F outlets have two round pins with two earth clips on the side. The standard voltage in Greece is 230V, and the frequency is 50Hz.

What is the voltage in Greece?

Just like the rest of Europe, the voltage in Greece is 230 volts and the frequency is 50 Hz. Greece has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to their compatibility with type F sockets.

Where can I find a plug adapter in Greece?

2. Obtain the appropriate plug adapter: In Greece, the power plugs and

sockets are of type C and F. If your device's plug is different, you will need a plug adapter to fit into the Greek sockets. These adapters can typically be found at electronics stores or online.

Do Europeans need a travel adapter in Greece?

Europeans do not need a travel adapter or transformer when traveling to Greece. Most device plugs will work with the outlet types in Greece. Also, the voltage in Greece is the same as in Europe. What Outlet does Greece Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin.
