# Greek containerized power generation

## Overview

---

Where does Greece's electricity come from?

12% of Greece's electricity comes from hydroelectric power plants and another 20% from natural gas. Between 2009 and 2010, independent companies' energy production increased by 56%, from 2,709 Gigawatt hour in 2009 to 4,232 GWh in 2010.

Does Greece have a nuclear power plant?

Greece currently does not have any nuclear power plants in operation, however in 2009 the Academy of Athens suggested that research in the possibility of Greek nuclear power plants begin. As of the 2023 International Energy Agency (IEA) report, Greece has made notable strides in reducing its reliance on lignite for electricity generation.

How much electricity does Greece produce in 2022?

As of 2022, electricity generation in Greece stood at 53 terawatt hours of electricity, making the country rank 15th in electricity production in Europe. Discover all statistics and data on Electricity in Greece now on [statista.com](https://www.statista.com)!

Why do we need cross-border transmission lines in Greece?

Additionally, developments of cross-border transmission lines support the EU Market integration as well as contribute to the security of supply. Greece, with its potential for renewable energy generation, can export clean energy to neighboring nations, contributing to regional sustainability goals and facilitate investments.

How much electricity does Greece produce a year?

The production of coal in Greece also fell to a record low of 0.05 exajoules and was not consumed for 28 consecutive days that same year. As of 2022, electricity generation in Greece stood at 53 terawatt hours of electricity, making the country rank 15th in electricity production in Europe.

## Why did Greece lose electricity in 2022?

In 2022 a drop in electricity consumption was noticed in Greece. This was attributed to the mild winter, as well as the skyrocketing of the energy prices. Economic slowdowns and high electricity prices stifled electricity demand growth in most regions around the world.
