# Grenada Outdoor Power Supply Specifications

## Overview

---

Do I need a power adapter in Grenada?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Grenada, you will need a power adapter and/or a voltage converter/transformer.

What voltage is used in Grenada?

In Grenada, power plugs and sockets (outlets) of type G are used. The standard voltage is 230 V at a frequency of 50 Hz. Grenada, often called the “Spice Isle,” is a Caribbean island nation known for its lush rainforests, stunning beaches, and rich history.

What type of plug is used in Grenada?

The power and outlet used in Grenada is the Type G plug. The type G plug has three rectangular pins arranged in a triangular pattern. What is the voltage and frequency in Grenada?

The standard voltage and frequency in Grenada are 230 V and 50 Hz.

Are there electrical outlets in Grenada?

No, the electrical outlets in Grenada are different from those in the United States. In Grenada electrical outlets of type G are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Grenada?

The electrical outlets and power plugs in Grenada are of type G (see images).

Does Grenada have a power system?

From its capital city of St. George’s to the diverse natural beauty of the interior, Grenada offers a unique and memorable travel experience. To ensure

your electronic devices stay charged and operational throughout your trip, it's important to understand the local power system.

Does Grenada have a USB adapter?

With its diverse range of plugs encompassing over 150 countries, including Grenada, you can stay connected and powered up wherever your journey takes you. This adapter is equipped with multiple USB ports and a standard socket, allowing you to charge multiple devices simultaneously.
