

SolarInvert Energy Solutions

High capacity lithium battery pack customization

Overview

Why should you choose a custom lithium-ion battery?

With stringent adherence to safety standards and compatibility with diverse drone systems, our custom lithium-ion batteries cater to the unique needs of aerial photography, surveillance, mapping and surveying, search and rescue, agricultural, and more.

What is a custom battery pack assembly service?

CMB's custom battery pack assembly services involve evaluating battery chemistries, casing design, and management systems based on customer needs. The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements.

What are the important considerations in lithium-ion battery pack design?

Another important consideration in lithium-ion battery pack design is ease of follow-up maintenance. In lithium-ion battery pack designs, some producers use mechanical components, bolts or nuts to link the cell. This kind of design allows the user to replace the cell and use the pack throughout the life of battery.

What is the best packaging for lithium batteries?

Air Sea Containers offers UN approved Lithium Battery packaging suitable for the shipment of Lithium Ion and Lithium Metal Batteries via any mode of transport. Our best packaging for shipping lithium batteries is the 4DV Plywood Boxes, which are ideal for batteries over 12kg.

What is UN approved lithium battery packaging?

Our packaging is UN-approved for the shipment of Lithium Ion and Lithium Metal Batteries. It is suitable for shipment via any mode of transport. Our packaging solutions for lithium batteries include:.

What is a custom LiFePO4 battery pack?

Our custom LiFePO4 battery packs are made in cylindrical and prismatic formats. LiPo batteries allow for greater flexibility and ensure the perfect fit for vehicles, machinery, and other various devices with unusual dimensions and weight requirements. Why Choose CMB As Your Custom Battery Pack Manufacturer?
