## Overview

---

What is Poland's energy storage program?

The program , “Electricity storage facilities and infrastructure for improving the stability of the Polish power grid,” is aimed at companies planning to invest in energy storage facilities with a capacity of at least 2 MW and a minimum capacity of 4 MWh.

How can energy storage facilities be improved in Poland?

Introduction of preferential loans for companies investing in energy storage facilities. Increasing the installed capacity of energy storage facilities by 300% by the end of 2025. Increasing the share of RES in Poland’s energy mix to 35% in 2025. Reduction of CO2 emissions by 15 million tons per year.

Why should Poland invest in energy storage?

Development of energy production and consumption forecasting systems. Energy storage subsidy programs support the transformation of Poland’s electricity grid into a more flexible and resilient system. Investments in storage facilities enable better integration of RES, improve grid stability and enhance the country’s energy security.

Why is energy storage subsidy important in Poland?

Energy storage subsidy programs are crucial to stabilizing Poland’s electricity grid. An increase in the number of storage installations affects the flexibility and reliability of the power system. Balancing energy supply and demand. Reducing the load on the grid during peak hours. Integration of renewable energy sources (RES).

How much PLN do I need for energy storage?

Up to PLN 6,000 for installations submitted by July 31, 2024. Up to PLN 7,000 for installations with energy storage. Up to £16,000, with a minimum capacity of 2 kWh. Up to £5,000, with a minimum capacity of 20 dm<sup>3</sup>. The maximum

amount of support is PLN 28,000 and covers up to 50% of eligible investment costs.

Is Poland a key player in Europe's energy storage sector?

Poland is emerging as a significant player in Europe's energy storage sector. The recent capacity market auctions in December 2024 highlighted a substantial shift towards BESS, with approximately 2.5 GW secured by new generation capacity market units, predominantly Li-ion energy storage projects.

## How Much Does a Polish Energy Storage Container Cost

### Energy storage subsidy programs in Poland for 2024 ...

Up to PLN 7,000 for installations with energy storage. Up to £16,000, with a minimum capacity of 2 kWh. Up to £5,000, with a minimum capacity of 20 dm<sup>3</sup>. ...
