in . - main lines in use: 72 764 (2011) Telephones - mobile cellular: 496 900 (2011) Telephone system: general assessment: effective system, extensive modernization from 1996-2000 following partial privatization in 1995 domestic: major service provider is Cabo Verde Tele.

How many phone lines are there in Cape Verde?

Communications in Cape Verde. Telephones - main lines in use: 72 764 (2011) Telephones - mobile cellular: 496 900 (2011) Radio broadcast stations: AM 0, FM 22 (and 12 repeaters), shortwave 0 (2002) Television broadcast stations: 5 (and 7 repeaters) (2008) Internet Service Providers (ISPs): 4 (2008) Internet Users: 150 000 (2011).

Could Cape Verde become a digital converging point?

Cape Verde could thus become a digital converging point between Africa, Europe and South America, providing backup systems for the region, benefiting from Cape Verde's transparent and stable regulatory framework. NDICI Investment Window 4.

Do I need a voltage converter in Cape Verde?

You don't need a voltage converter on Cape Verde. To be sure, check the label on your devices. Some devices never need a converter. If the label states 'INPUT: 100-240V, 50/60 Hz' the device can be used in every country in the world. This is common for devices with chargers like tablets/laptops, photo cameras, cell phones, toothbrushes, etc.

Does Cape Verde have a high level of Internet penetration?

The Internet faces similar barriers and considering the advanced state of its infrastructure, it is surprising that Cape Verde does not have a higher level of Internet penetration, which stood at 2.7 percent at the end of 2001.

Does Cape Verde have a good internet connection?

Cape Verde is lagging behind in the expansion of broadband internet

connections. Around 74 percent of all residents have access to the internet. Around 7 percent have their own fast internet connection, which is at least faster than the former ISDN (more than 256 kbit/s).

What percentage of Cape Verde residents have broadband?

Values above 100 percent mean that, on average, every inhabitant has more than one connection. Cape Verde is lagging behind in the expansion of broadband internet connections. Around 74 percent of all residents have access to the internet.
