# How much does a green base station cost

## Overview

---

The typical cost of a solar base station can range from \$10,000 to over \$300,000, based on various design, capacity, and component quality factors. How much does base cost?

To get with Base, you pay a \$50 refundable deposit upfront. This deposit applies toward your one-time installation cost once your battery is installed. Membership Fee Monthly Energy Bills You can see Base's latest plans and Electricity Facts Labels (EFLs) [here](#). [Calculate Your Savings](#).

How much does a base battery cost?

Based on when members signed up for Base, they may be on an older version of pricing that is broken down differently. Single Battery System: \$695 (First year membership of \$225/year is waived) Dual Battery System: \$995 (First year membership of \$345/year is waived).

How much does a hydrogen station cost?

Hydrogen stations for transit buses cost approximately \$5 million for a station that can fill up to 25 buses a day at 6-to-10 minutes per bus. The stations for AC Transit and Stark Area Regional Transit Authority have liquid delivery stations, and the SunLine Transit station has a large electrolyzer.

How does a hydrogen station grant work?

A competitive grant process provides 70-85% of the capital and construction costs for hydrogen stations, which reduces the financial risk for businesses. The program also provides station O&M costs for the first three years ensuring that stations continue to operate until the volumes of vehicles arrive to make the business case.
