# How much does an outdoor power supply cost in Namibia

CE UN38.3 MSDS

## Overview

---

Why does Namibia need more electricity?

“ More electricity will be generated locally, hence reducing imports and overall cost of electricity,” Kahimise said. Namibia imports about 60% of its electricity from neighbors including South Africa, Zambia and Zimbabwe, which have their own problems meeting demand. Renewables now make up 21% of the country’s electricity mix.

What is Namibia's electricity tariff hike?

Namibia’s Electricity Control Board (ECB) has approved a 3.8% electricity tariff increase, in a move to reduce the nation’s electricity subsidy. The hike increases the cost of electricity from N\$1.98 (\$0.11) per kWh to N\$2.06 (\$0.11) per kWh for the 2025/26 financial year.

What is Namibia doing to reduce electricity imports?

Namibia plans to add 93 megawatts of renewable energy capacity during the financial year ending 2026 as part of a strategy to reduce electricity imports. Kahimise said the government also plans to boost domestic electricity generation to 80% by 2030, up from the current 45%, in a bid to complement the household electrification drive.

What percentage of Namibia's electricity comes from renewables?

Namibia imports about 60% of its electricity from neighbors including South Africa, Zambia and Zimbabwe, which have their own problems meeting demand. Renewables now make up 21% of the country’s electricity mix. The goal is to reach 70% of electricity from renewables by 2030.

Will Namibia's electricity tariff increase reduce its subsidy?

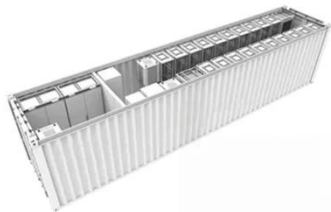

Every day, we handpick the biggest stories, skip the noise, and bring you a fun digest you can trust. Namibia’s Electricity Control Board (ECB) has approved a 3.8% electricity tariff increase, in a move to reduce the nation’s electricity

subsidy.

How much power does Namibia need?

Peak demand is over 600 MW. Namibia has long relied on imported power from South Africa (Eskom) and other neighboring countries, but South Africa's own economy has put strains on its domestic electricity generation capability and thus its ability to export. Namibia has a power purchase agreement with Eskom which expires in 2025.
