How much does it cost to install solar photovoltaic panels in Ukraine

Overview

At an average market price of UAH 12,000 per panel, the total cost would amount to nearly UAH 315 million. Considering that each panel occupies around 2 m², installing such a number of panels would require 52,450 m², which is more than five football fields. Do you need a permit to install solar panels in Ukraine?

The Cabinet of Ministers encourages the installation of solar power plants by both individuals and legal entities. Starting from July 1, 2023, no permit is required to install solar panels with a capacity of up to 30 kW in Ukraine, and preferential "zero" loans for households are issued for the purchase of equipment with a capacity of 1-10 kW.

Is Ukraine a good place to invest in solar power?

Ukraine has a range of incentives designed to encourage investment in solar power facilities. Since the country is one of the top locations for solar panel installation, this market holds a great deal of potential for any developer looking to enter the industry. Gudzovka has a peak capacity of 24.3 MW, which is enough to power around 23,000 homes.

Is solar energy gaining traction in Ukraine?

Solar energy in Ukraine is gaining traction. With one of the largest solar energy companies in the country aiming to deliver 1 Gigawatt of solar and wind energy by 2030, there is a huge spike in demand. Ukraine has a range of incentives designed to encourage investment in solar power facilities.

How to get a loan for solar power plants in Ukraine?

Documents required to obtain a loan for solar power plants To obtain a loan, you need: - Passport of a citizen of Ukraine (an ID card is acceptable); - Certificate of identification number (TIN) assignment; - A document on income and withholdings for the last 6 months; - Invoice or contract for the purchase and installation of equipment;.

How much does a solar power plant cost?

The cost of a mini-station based on a portable charging station, which will meet the minimum needs of a family with gas heating in winter, is about 100 thousand UAH. A small solar power plant with a turnkey inverter costs about \$5,000. It is worth noting that most houses have enough power from 5 to 15 kW.

How many solar panels are installed in Odessa?

Activ Solar announced the commissioning of a 43.4 MW solar plant in southwest Odessa, which comprises 181,192 multicrystalline panels installed on one row and connected by 41 inverter stations. It has a capacity of 43.3 MW.
