

## SolarInvert Energy Solutions

# Huawei Samoa solar panels

## Overview

---

Does Samoa have a solar grid?

Samoa's first grid connected solar. Samoa, the first country to access the Pacific Environment Community (PEC) Fund since its inception in 2010 is finally having their first solar photovoltaic grid system commissioned for use in Salelologa, Savai'i.

How long will Samoa's solar project last?

The project expected to last more than 20 years is spread out over three sites in the country's main islands, Upolu and Savai'i. "Today, we are opening Samoa's first solar system, without storage, that can be connected to the grid, to run in parallel with other energy sources like diesel generators.

What makes a good solar panel layout?

y to install on site. There is a high height, north-south and east-west direction has a large enough span to ensure that agricultural machinery in and out of the site operation unimpeded. Reasonable panel layout ensures reasonable rooftop sun-shine demand. East, west, north and south direction have cross rail
