# Imported lithium battery pack

## Overview

---

Which countries import lithium-ion batteries?

Lithium-ion batteries power various technologies, from smartphones to electric vehicles and grid storage. China dominates the global lithium battery supply chain, producing over 75% of the world's lithium-ion battery cells. The U.S. imports nearly 70% of its lithium batteries from China, making tariffs on these products highly impactful.

How to import lithium batteries from China?

For cost-effective shipping, plan your lithium battery imports in advance and choose the best shipping method based on urgency and budget. By understanding the logistics requirements, packaging regulations, and cost factors, businesses can import lithium batteries from China efficiently while ensuring full compliance with international trade laws.

Are lithium batteries safe to import?

When importing lithium batteries, for instance, there are stringent safety standards for battery imports that you must adhere to. These standards aim to prevent any potential hazards associated with the transportation and handling of these energy-packed products.

What are the biggest hurdles to importing lithium batteries from China?

The biggest hurdles to overcome when importing lithium batteries, or any product, from China are: Following a new set of tariffs announced by the Biden Administration in May 2024, the duty rate on lithium-ion EV batteries was raised from 7.5% to 25%. Non-EV batteries will rise to 25% in 2026.

Can You import lithium batteries to the United States?

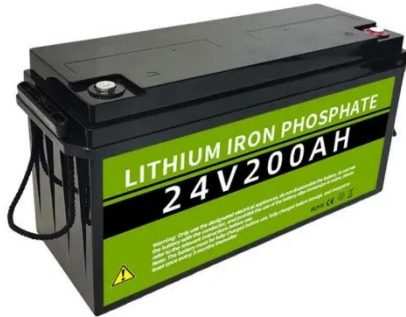

Dealing with the challenges of importing lithium batteries to the U.S. is easier with the right partner. With USA Customs Clearance by your side, you'll have the support to power through any obstacles and help your business succeed.

Are lithium batteries safe to ship from China?

With China being the world's largest producer of lithium batteries, businesses worldwide rely on Chinese suppliers for cost-effective, high-quality battery solutions. However, importing and shipping lithium batteries from China comes with strict international regulations due to their classification as hazardous materials.
