

SolarInvert Energy Solutions

Indonesia Construction Investment Energy Storage Project

Overview

Indonesia & Singapore, 28 May, 2025: TotalEnergies and RGE, through their equally-owned joint venture Singa Renewables (Singa), have entered into a Co-Investment Agreement to develop, build and operate a solar photovoltaic (PV) power plant with battery energy storage system (BESS) in Riau Province, Indonesia. Is RGE building a solar power plant in Indonesia?

French multi-energy group TotalEnergies SE (EPA:TTE) and Singapore-headquartered RGE today signed a co-investment agreement to construct a solar power plant with battery storage in Indonesia for domestic supply and export to Singapore.

Will Indonesia deploy 100 GW of solar?

The Indonesian government has revealed a new initiative aiming to deploy 100 GW of solar. The distributed solar for energy self-sufficiency program encompasses 80 GW of solar that will be deployed as 1 MW solar arrays with 4 MWh of accompanying battery energy storage systems (BESS).

Are RGE & totalenergies co-investing in a solar power plant in Indonesia?

RGE and TotalEnergies, through their joint venture Singa Renewables, have entered into a co-investment agreement for a solar power plant with BESS in Indonesia.

Will GE & totalenergies build a solar power plant in Indonesia?

GE and TotalEnergies, through their equally-owned joint venture Singa Renewables (Singa), have entered into a Co-Investment Agreement to develop, build and operate a solar photovoltaic (PV) power plant with battery energy storage system (BESS) in Riau Province, Indonesia. The utility-scale project will be constructed in phases.

How can Indonesia become a global renewables hub?

Position Indonesia as a global renewables hub through the creation of skilled

jobs in renewables, BESS, engineering, and grid integration in Indonesia, in addition to developing the country's solar and energy storage supply chain capabilities. Support wider ASEAN ambitions for cross-border clean energy cooperation and energy integration.

How much solar energy does Indonesia have?

The initiative is still under development, with Indonesia's Ministry of Energy and Mineral Resources, Coordinating Ministry of Economic Affairs and Coordinating Ministry of Food responsible for its preparation. IESR has estimated Indonesia has a potential solar energy capacity ranging from 3,300 GW to 20,000 GW.
