

## SolarInvert Energy Solutions

# Indonesian smart energy storage battery companies

## Overview

---

Who are Indonesian solar battery storage companies?

Indonesian solar battery storage companies mainly include energy storage system integrators, charging infrastructure providers, battery manufacturers, energy storage project developers and energy storage product traders. These companies focus on different aspects such as development, design, construction, production and trade.

Why is battery energy storage system important in Indonesia?

However, given the challenge of Indonesia's geological landscape, with many off-grid and remote areas, there is growing intermittency issue that hamper the development of solar and wind generation. Hence, the battery energy storage system (BESS) technologies have a critical role in the development of Indonesia's renewable energy.

What are the opportunities in Indonesia's battery storage sector?

Opportunities in Indonesia's battery storage sector are significant, driven by the growing demand for renewable energy sources and the government's ambitious targets for transitioning to cleaner energy.

Is battery storage taking off in Indonesia?

Despite the opportunities for manufacturing, from a deployment perspective, battery storage has not yet taken off in Indonesia beyond a handful of projects, including a 5MW pilot announced by the government in March 2022. Rept Battero has announced plans to develop an 8GWh gigafactory in Indonesia specialising in lithium-ion cells for BESS.

Will Tesla invest in Indonesia's battery energy storage system sector?

There have been talks with Tesla, with plans to invest in Indonesia's Battery Energy Storage System sector. Tesla has an outstanding reputation in its production of technology that is carbon neutral. The BESS produced and used

by Tesla has a relatively low negative environmental impact.

Who is involved in the battery energy storage system project?

Subsidiaries of PLN involved in the Battery Energy Storage System project happen to be the primary electricity providers in Indonesia, such as PT Indonesia Power, PT Pembangkitan Jawa Bali, and others. The plan to develop an energy storage system aligns with the positive growth in the renewable energy industry.
