

SolarInvert Energy Solutions

Industrial and commercial energy storage EPC project contracting

Overview

Who is EPC energy?

As the industry leader in renewable energy, EPC Energy is innovative to provide reliable turnkey energy storage solutions. EPC Energy is a diversified energy storage contractor and provides complete engineering, procurement, and construction (EPC) services from commercial and industrial to utility-scale storage projects.

What can EPC energy do for You?

We can build out both or add energy storage to existing PV projects. EPC Energy also provides integrated energy storage solutions for microgrid projects that tap into the power of storage, PV, and wind generation asset. We make energy efficiently.

What makes INTEC a global leader in EPC services?

With over a decade of success, INTEC has evolved into a global leader in EPC Services, boasting an installed and secured 3.9 GW track record. Our focus on green energy drives us to go further, now offering comprehensive Project Development services and investing in New Energy Solutions.
