

SolarInvert Energy Solutions

Industrial base station communication equipment

Overview

What is a communication base station?

Communication base station setups will usually include a wide array of different technologies, including power supplies, data servers, head end, radio repeaters, and communication systems that allow for high-speed continuous information flow. It can also be used as part of a leaky feeder system in the communication network.

What is a mining communication base station?

Our mining communication base stations are innovatively built to fit your specific project's needs. Our semi-portable LTE base stations are modular, standalone, fully self-supporting units forging the way in long range communications solutions for remote mining operations. Mining relies on communication technology.

What can a base station do for You?

Seamless two-way communication between surface personnel and machinery, remote monitoring and control of mining equipment, valuable data collection on production, grade and output, and real-time access to mine operations - with our base stations, it's all possible.

Can a mining base station be used as a communications tower?

Our mining communication base stations can also host mast systems up to 32 metres high, depending on your selected model, meaning it can easily be used as an off-grid communications tower. Or use our base station next to a fixed tower for power and communications without the need for site services.

What is an industrial wireless intercom callbox?

Our wireless and wired industrial intercom systems come in diverse options designed for indoor and outdoor applications to support operations requiring safety, coordination and efficiency. Industrial wireless intercom callboxes

serve remote outdoor locations where wiring installation is not feasible.

What is an industrial intercom system?

Our industrial intercom systems provide dependable high-performance communication solutions that function in extreme conditions to meet critical communication requirements.
