

SolarInvert Energy Solutions

Industrial energy storage cabinet wholesale manufacturer

Overview

Who makes energy storage enclosures?

Machan offers comprehensive solutions for the manufacture of energy storage enclosures. We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services.

What are commercial and industrial energy storage solutions?

Our commercial and industrial energy storage solutions offer from 30kW to 30+MW. We have delivered hundreds of projects covering most of the commercial applications such as demand charge management, PV self-consumption and back-up power, fuel saving solutions, micro-grid and off-grid options.

Which energy storage systems are best for commercial & commercial facilities?

AlphaESS industrial and commercial energy storage systems can provide the one-stop C&I energy storage solution for commercial and industrial facilities. Our solar PV and battery storage solution help maximize energy independence and reduce grid power demand. Residential & commercial battery energy storage systems available.

What is a C&I energy storage system?

A C&I (Commercial and Industrial) energy storage system is an energy storage solution designed for commercial and industrial applications, such as factories, office buildings, data centers, schools, and shopping centers.

Why should you choose energy storage cabinets?

This ensures that energy storage cabinets can provide a complete solution in emergency situations such as fires. To accommodate different climates, we provide professional recommendations based on customer usage scenarios

and requirements.

Why should you choose Machan for your energy storage enclosure?

Machan has extensive experience in the manufacture of outdoor enclosures, enabling us to meet the diverse needs of energy storage enclosure customers across a range of industries and applications.

Efficient
Higher Revenue

Intelligent
Simple O&M

Flexible
Abundant Configuration

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules
- IP65 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection
- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 4 units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
