Ireland Energy Storage Power Wholesale Price

Overview

Wholesale electricity prices in Ireland averaged €122.89/MWh (12.29 c/kWh) over the past 12 months, with July 2025 trading at €99.62/MWh (9.96 c/kWh). Prices are well below the crisis peak of €388/MWh (38.8 c/kWh) in August 2022, but remain higher than the pre-2021 average of €40–€60/MWh. Are wholesale electricity prices still high in Ireland?

Wholesale electricity prices in Ireland have dropped over 50% since the energy crisis peak in August 2022, but remain elevated compared to historic levels. Prices are still a significant factor in your business's energy budget. This article breaks down: What Are Wholesale Electricity Prices?

.

How much does electricity cost in Ireland?

The group noted that the price fell to €94.46/MWh last month during windy days, when its industry was able to supply large quantities of electricity, but rose to €187.57 when fossil fuel provided most of the power. Natural gas generates around half the electricity used in Ireland.

What is the cheapest electricity supplier in Ireland?

As of August 2025, the cheapest electricity supplier in Ireland is Yuno Energy, whose standard, 24hr rate deal costs an estimated €1,299.52 per year. The 'raw' cost of electricity generation makes up less than half of what you pay. The final price per kWh is a combination of several factors:.

Does Ireland still have the most expensive electricity in the EU?

Ireland still has some of the most expensive electricity in the EU, but with the wholesale price of gas expected to fall this year, further price decreases may be on the horizon. When comparing unit prices, pay attention to: Any unit rate discounts or cashback offers for new customers.

What are wholesale electricity prices?

Wholesale electricity prices are the rates suppliers pay to purchase electricity from power stations, wind farms, and other generators. These prices are set in real-time via hourly auctions in the Single Electricity Market (SEM) — Ireland's regulated all-island electricity market.

How does natural gas affect electricity prices in Ireland?

Natural gas generates around half the electricity used in Ireland. Wholesale electricity price movements do not directly affect most customers, as suppliers buy most of their needs months in advance, a practice known as hedging.
