Is it safe to bring an outdoor power bank to Sweden

Overview

Are power banks safe?

Power banks are treated the same way by most airlines because the rules come from safety bodies like IATA (International Air Transport Association) and the FAA (Federal Aviation Administration). The good news is that the important points are pretty straightforward. You must keep power banks in your carry-on cabin bag.

Can you put a power bank in a bag?

Avoid using a power bank inside a bag as it can overheat. Power banks are treated the same way by most airlines because the rules come from safety bodies like IATA (International Air Transport Association) and the FAA (Federal Aviation Administration). The good news is that the important points are pretty straightforward.

Can power banks be used on European flights?

Battery capacity limits dictate how power banks can be used on European flights. Power banks with a capacity up to 100 watt-hours (Wh) are generally permitted in carry-on luggage. According to the EASA regulations, devices between 100 Wh and 160 Wh require prior approval from the airline.

What are the power bank rules across European airlines?

By following these steps, you will gather comprehensive and reliable information about power bank rules across European airlines. Passengers can carry power banks under 100Wh on airplanes in Europe without restriction. For those between 100Wh and 160Wh, airline approval is needed.

How do I know if my power bank is safe?

Check the capacity: Look for the watt-hour rating (or calculate it) and confirm it's within airline limits. Inspect for damage: Do not travel with a power bank that's cracked, swollen, leaking or overheating. Get approval if needed:

Contact your airline in advance for any power bank between 101 Wh and 160 Wh and carry written proof of approval.

What should you not do with a power bank?

Avoid exposing your power bank to extreme heat or cold (like leaving it in a car), as this can shorten its lifespan or damage it. Don't buy a dodgy or unknown brand power bank. Don't use a power bank that's cracked or starting to swell. Avoid using a power bank inside a bag as it can overheat.
