Ivory Coast solar power reaches 315 MW

Overview

As of 2024, Ivory Coast had an installed electricity capacity of 2,907 MW, with 69% coming from thermal sources and the rest from renewables; solar accounted for less than 2%. The country aims to increase this capacity to 5,200 MW by 2030 and 8,600 MW by 2040.

Ivory Coast solar power reaches 315 MW

Solar powering Ivory Coast

The Ivory Coast has initiated multiple solar power projects to increase the share of renewable energy in the energy mix and reach universal electricity access by 2030.
