

SolarInvert Energy Solutions

Japanese mobile energy storage power supplier

Overview

Who are Japan's major energy companies?

These have come from a mix of major Japanese industry players, including electric utilities and large corporates, and international players like technology providers Tesla, LS Electric and Sungrow, and developers such as Eku Energy and Gurin Energy.

Why do Japanese businesses need battery storage?

Businesses see battery storage as a complement to their renewable energy strategy, and a strong opportunity to improve their bottom line while accelerating their path to decarbonization. Enel X is a global leader in this space, and is a partner of choice for Japanese businesses.

Can Eku energy commercialise large-scale batteries in Japan?

For Eku Energy, the LTDA is important to the business model of its Japanese projects but the developer, perhaps best known for projects in the UK and Australia, sees three pathways to commercialisation for large-scale batteries in Japan. The company secured a 20-year tolling agreement for its first Japan project, the 30MW/120MWh Hirohara BESS.
