

SolarInvert Energy Solutions

Kosovo rechargeable energy storage battery company

Overview

The new publicly owned enterprise “Energy Storage Corporation (ESC)” will operate as a joint-stock company with the Republic of Kosovo as its sole shareholder, and during the 5-year development and construction phase, it will be financed by the Compact Program. How will a 340 MWh battery storage facility impact Kosovo?

Installing a 340 MWh battery storage facility in Kosovo will positively impact the country's energy sector by reducing the country's dependence on imported electricity, including increased energy security, integration of renewable energy, improved grid stability, reduced energy costs, and environmental benefits.

Can battery energy storage systems improve Kosovo's power system?

In conclusion, battery energy storage systems can provide significant benefits to Kosovo's power system.

How much money will Kott invest in a battery energy storage system?

The agreement involves an investment of approximately 236 million Dollars, with a major component being the installation of a Battery Energy Storage System (BESS) with a capacity of 340 MWh. As part of the BESS, KOSTT will own a portion of 90 MWh to provide its own ancillary services, specifically secondary reserves.

What role will Bess play in achieving Kosovo's Energy ambitions?

As Kosovo transitions towards a more sustainable energy future, BESS will undoubtedly play a vital role in achieving its energy ambitions.
