Latest quotes for energy storage systems

Overview

Are energy storage systems in demand?

Energy storage systems are increasingly in demand to increase the effectiveness of solar power arrays, with the Energy Information Administration estimating in February that new utility-scale electric-generating capacity on the U.S. power grid will hit a record in 2025 after a 30% increase over the prior year.

Are battery energy storage systems reliable?

The Australian Energy Market Operator (AEMO) has found battery energy storage systems (BESS) are the most reliable clean energy technology in the National Electricity Market (NEM). If playback doesn't begin shortly, try restarting your device. An error occurred while retrieving sharing information. Please try again later.

Is energy storage at a crossroads?

The Q1 2025 results demonstrate the demand for energy storage in the US to serve a grid with both growing renewables and growing load,” said Allison Weis, global head of energy storage at Wood Mackenzie. “However, the industry stands at a crossroads, with potential policy changes threatening to disrupt this momentum.”.

Are battery energy storage systems vulnerable to tariffs?

Battery energy storage systems are especially vulnerable to tariffs, according to Wood Mackenzie and Anza Renewables. Data from the two firms showed a sharp increase in BESS costs last quarter.

Will DTE Energy Supply 3 gigawatts of electricity to big tech data centers?

Detroit-based power utility DTE Energy is in advanced talks to supply more than 3 gigawatts of electricity to Big Tech data centers and expects to sign its first major deal by the end of the year, company executives said on Tuesday.

Are policy changes threatening the storage industry?

“However, the industry stands at a crossroads, with potential policy changes threatening to disrupt this momentum.” In the near term, the report expects 15 GW/49 GWh of new storage capacity to be installed across all segments in 2025, with utility-scale installations projected to grow 22% year-over-year.
