

SolarInvert Energy Solutions

Latvian energy storage charging pile integrated equipment

Overview

Where is the first battery energy storage system in Latvia?

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region.

Who are the best solar park installers in Latvia?

One of the TOP solar park installers in Latvia. PV Engineering Inhouse Team of Engineers, certified for any electrical design work up to 35kV Car charging Car charging station sales and installation Sale of equipment Wholesale and retail of solar panels, inverters, batteries and other green energy equipment.

Are new wind farms a good investment for Latvia's energy security?

I am pleased that the bar has been set high for developers of new wind farms, which also plays an important role in the context of Latvia's energy security," said Climate and Energy Minister of Latvia, Kaspars Melnis. Given the total investment in the project, the OP Corporate Bank provided loan financing.
