

SolarInvert Energy Solutions

Latvian energy storage power supply manufacturer

Overview

With help of the experience and knowledge of our employees, we strive to provide customers with a complete sense of security, guaranteeing the most economically.

The company is a leader in the supply, maintenance and repair of uninterruptible power supply and energy-saving equipment in the Baltics. We are leading.

We mean what we say – you can trust that. Friendly and personal attitude towards the customer and his needs, maintaining the same customer service.

Latvenergo said it will build the battery energy storage system (BESS) projects in response to increasing demand for flexibility and to synergise with its hydropower, gas-fired plants and solar and wind capacities under development. Where is the first battery energy storage system in Latvia?

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region.

Will Latvenergo become Baltic leader in battery energy storage systems?

Energy company Latvenergo said February 18 it is investing heavily in battery systems with the stated intention of becoming the the Baltic market leader in battery energy storage systems (BESS).

Are new wind farms a good investment for Latvia's energy security?

I am pleased that the bar has been set high for developers of new wind farms, which also plays an important role in the context of Latvia's energy security," said Climate and Energy Minister of Latvia, Kaspars Melnis. Given the total investment in the project, the OP Corporate Bank provided loan financing.

What is the most powerful electric car charging station in Latvia?

In 2018, at that point the largest generator T1900 with a V16 Mitsubishi engine of 1,900 kVA for Z-Towers was delivered and installed. In 2019, the

most powerful electric car charging station in Latvia was installed at Energolukss building – 100 kW. In 2019, the delivery of solar energy solutions to customers was started.
