

SolarInvert Energy Solutions

Lifting inverter control cabinet

Overview

Which inverter is suitable for control cabinet installation?

Installation Installation accessories Installation MOVIDRIVE® system application inverters are exclusively suitable for control cabinet installation according to the degree of protection. Installation accessories Type designation Part number Plastic cover Quantity MDX9_A-0460 – 0750-5_3-. 28243625 MDX9_A-0420 – 0570-2_3-.

Which frequency inverters are suitable for control cabinets?

No matter where you are in the world, our drives are your solution. We have developed the NORDAC PRO family of frequency inverters specifically for installation in control cabinets. These inverters are equally suitable for operating synchronous and asynchronous motors and meet all customer requirements thanks to a wide range of custom options.

How much power does a control cabinet inverter have?

Our inverters for control cabinet installation have a power range from 0.33 to 215 HP and can be customized with optional plug-in modules. Variable cooling solutions ensure optimum heat dissipation. Why Control Cabinet Inverters From NORD?

High Performance NORD inverters for control cabinet installation provide high precision speed control.

How to install the application inverter in the control cabinet?

Installation Mechanical installation 4.4.2 Minimum clearance and mounting position When installing the application inverters in the control cabinet, observe the following: • To ensure unobstructed cooling, leave a minimum clearance of 100 mm above and below the application inverter housings.

How much power does a Nord control cabinet inverter have?

NORD control cabinet inverters have a power range of up to 215 HP and thanks to their wide range of functionality can be perfectly adapted to many customer applications. NORD Frequency Inverters already meet the requirements of energy efficiency classification IE2 of the new Ecodesign directive (EU) 2019/1781 (valid from 1st of July 2021).

What equipment can be installed inside the control cabinet?

According to the needs of the operating conditions, we can install AC input reactor, output reactor, DC reactor, EMI filter, braking unit, breaking resistor, contactor, intermediate relay, thermal relay, PLC, GOT, Electricity meter, cooling fan and etc inside the control cabinet.

Lifting inverter control cabinet

Elevator Main Controller Board, Serial Controller Board...

As an experienced elevator main controller board manufacturer and supplier in China, at STEP we also offer car controller board, full serial VVVF control cabinet, fan inverter, water pump
