

# SolarInvert Energy Solutions

# Luxembourg photovoltaic folding container refrigerator wholesale

## Overview

---

What is a solarfold photovoltaic container?

at full power. The solarfold Photovoltaic Container is mobile for universal deployment with a light and versatile substructure. The semi-automatic electric drive unit manoeuvres the mobile photovoltaic system into its operating position rapidly and smoothly along a length of around 123 metres.

What are solar-powered refrigerated containers used for?

Our solar-powered refrigerated containers are ideal as self-sufficient solutions for medicine, perishable goods or technical equipment. Our systems are in use 24/7 and have been developed especially for operation at high ambient temperatures of up to 52°C. All applications are supplied exclusively with photovoltaic and wind generators.

How do solar-powered refrigerated containers work?

All applications are supplied exclusively with photovoltaic and wind generators. Through the integration of special energy storage systems, the cooling of the solar-powered refrigerated container remains active even without sunshine thus the stored goods or products remain cool or frozen.
