

SolarInvert Energy Solutions

Mauritius Photovoltaic Energy Storage Company

Overview

Are there integrated photovoltaics in Mauritius?

According to MARENA, there are currently no building integrated photovoltaics in Mauritius. Energy efficiency is now one of the main criteria in the design of public buildings and in rental of private buildings. The Green Building Council Mauritius was set up in 2009 to promote green building and is a member of World Green Building Council.

Why should you invest in solar energy in Mauritius?

Many homebuyers and commercial property investors are willing to pay a premium for properties with solar installations because they offer reduced energy costs and environmental benefits. Tax Incentives: In Mauritius MRA offers tax credits to encourage the adoption of solar energy.

Can solar panels help Mauritius become more eco-friendly?

By using solar panels, you can significantly reduce your carbon footprint and combat climate change. By the way: CEB's Carbon footprint is still over 80% fossile so taking action yourself can help accelerate Mauritius to become more eco-friendly.

Does Qair Group operate solar energy farms in Mauritius?

Qair Group already operates three solar PV and wind energy farms in Mauritius with a combined capacity of 35 MW. The group founded by Jean-Marc Bouchet has a combined renewable energy capacity of 860 MW operational in Africa, South-East Asia, South America, and Europe.

How can I make Mauritius more eco-friendly?

By the way: CEB's Carbon footprint is still over 80% fossile so taking action yourself can help accelerate Mauritius to become more eco-friendly. This kit is ideal for small Mauritian households with 2 air-conditioning devices, refrigerator, washer and a water pump.
