# Mexico portable energy storage export tariffs

## Overview

---

What is the tariff rate for imports from Mexico?

The current tariff rate for imports from Mexico is 25%. However, this rate can vary depending on the specific product category and any applicable trade agreements or exceptions. How do Mexico tariffs affect import costs?

Mexico tariffs directly increase the cost of importing goods by 25% of the product value.

Are Mexican exports subject to the ad valorem tariff?

Therefore, Mexican exports are not subject to the general 10 percent ad valorem tariff applied to all imports from other countries. However, Mexico is explicitly included in other tariff provisions targeting specific product categories, particularly under Sections 3 (d) and 3 (e) of the executive order.

Is Trump extending tariffs with Mexico?

Link Copied! President Donald Trump announced on Thursday he's extending the existing tariffs with Mexico, America's largest trading partner, and he will pause higher tariffs that were set to go into effect Friday.

Will US tariffs affect energy storage?

There have also been indications that the US administration may consider other tariff proposals impacting energy storage, such as a 10-20% universal tariff, tariffs of up to 60% across the board on Chinese-origin goods, and tariffs of 25% on Mexican and Canadian origin goods.

Does Mexico have a tariff on steel & aluminum?

However, proclamations issued in February and March 2025 eliminate these exemptions. As a result, steel imports from Mexico are now subject to a 25 percent tariff and aluminum imports are subject to a 10 percent tariff, consistent with the treatment of other exporters.

What is the Mexico-US tariff cheat sheet?

The Mexico-U.S. Tariff Cheat Sheet isn't just a handy resource—it's a survival tool. With tariffs shifting faster than a Texas weather forecast, knowing your options in Mexico is more than smart—it's strategic. Use the tools you've got. Leverage the USMCA.
