

SolarInvert Energy Solutions

Micronesia complete solar power generation system

Overview

How much does a solar project cost in Pohnpei?

After just 15 years, the entire project, capitalized at over \$20 million, will transfer, without cost, to the State of Pohnpei, providing it with many more years of free renewable energy using the best solar technology. The solar project in Pohnpei is a concept that can be replicated by other Small Island Developing States.

What is the Federated States of Micronesia (FSM)?

The Federated States of Micronesia (FSM) consists of the Government of FSM (GoFSM) and the four states of Chuuk, Kosrae, Pohnpei, and Yap.

Does Kosrae have a solar power system?

Solar PV and mini-grid in Kosrae installed 1.15 MWp solar photovoltaic installed in the Kosrae power system; Electrification of Walung Village, Kosrae with a hybrid solar (60 kWp), diesel (30 kW), battery (30 kW / 160 kWh) mini-grid, and solar home systems (2.5 kW/ 4 kWh); and Capacity building in KUA.

Will solar power help FSM achieve 70 percent renewable electricity by 2030?

New grid-connected solar generation and battery storage systems in Chuuk and Pohnpei will help FSM meet its goal of 70 percent renewable electricity by 2030, while cutting greenhouse gas emissions and insulating communities from volatile fuel prices.

What is a solar project in Kosrae?

The project will also include a hybrid PV-diesel mini-grid and solar-home-systems in Walung village, a remote part of Kosrae island. Investments in Walung will include 60 kW of PV, a 30 kW diesel generator, a 30kW/160kWh BESS, and multiple 2.5 kW/4kWh solar home systems.

Is Chuuk power utility a part of a solar project?

Investments in Chuuk Power Utility Corporation are included in a separate program. 7. The project in Kosrae includes 1.15 megawatt (MW) of ground-mount and roof-top solar photovoltaic (PV) on KUA's main grid. This will be integrated with a World Bank-financed battery energy storage system (BESS) that is also being planned for KUA's main grid.

Micronesia complete solar power generation system

The Technology, Policy, and Partnership Challenges in ...

A significant challenge for renewable energy in Micronesia is building and retaining technical capacity, to not only operate but maintain solar PV electrical generation systems.
