

SolarInvert Energy Solutions

Myanmar Solar Photovoltaic Water Pump Inverter

Overview

What are photovoltaics used for in Myanmar?

In rural areas, photovoltaics are used for charging batteries and pumping water. 70% of the Myanmar population live in rural areas. Myanmar's opened its first solar power plant in Minbu, Magway Division, in November 2018. It can produce as much as 170MW of electricity.

Will Myanmar build solar power plants?

On the occasion, Secretary of the State Administration Council Lt-Gen Aung Lin Dwe said as Myanmar is rich in renewable energy sources such as hydropower, solar and wind power, it will make full use of the advantages provided by the nature and build solar power plants.

How many Growatt inverters have been shipped?

By the end of 2020, Growatt had shipped over 2.6 million inverters to more than 100 countries around the world. We are partners with ANTAI to procure customized mounting structures. Other mounting structures are available on the market, and we ensure the best quality and durability during selection.

Who are Growatt inverters & Antai?

We are partners with Growatt inverters and are able to provide the most cost-effective solutions. By the end of 2020, Growatt had shipped over 2.6 million inverters to more than 100 countries around the world. We are partners with ANTAI to procure customized mounting structures.

Myanmar Solar Photovoltaic Water Pump Inverter

The UNDP Myanmar Village Solar Water Supply ...

From June to July 2023, construction and installation of solar water pumping systems in 20 villages funded by UNDP were completed in Myingyan and ...
