

## SolarInvert Energy Solutions

# Nicaragua BESS outdoor base station power cabinet recommendation

## Overview

---

How many kW & kWh are in a Bess cabinet?

BESS cabinet of 187 kW-200 kWh for both indoor and outdoor use with battery racks built of LFP cells. BESS 10 ft container of 500 kW-600 kWh built by LFP battery cells with all necessary safety features included. BESS 20 ft container of 1 MW – 1,2MWh built by LFP battery cells with all necessary safety features included.

What is a Bess & how does it work?

Renewable energy generation is growing in all these segments causing an increased demand for storage. The BESS provided by Sparq serves a multitude of purposes, such as smoothing out energy demand spikes, providing backup power during blackouts, and using wind, solar, and the grid to store excessive energy for later use.

Why should you choose SPARQ's Bess system?

The BESS provided by Sparq serves a multitude of purposes, such as smoothing out energy demand spikes, providing backup power during blackouts, and using wind, solar, and the grid to store excessive energy for later use. Sparq's modular and scalable BESS is designed for different applications and based on customized project requirements.

What is a Bess 20 ft container?

BESS 20 ft container of 1 MW – 1,2MWh built by LFP battery cells with all necessary safety features included. All of our systems are designed to seamlessly fit various environments and structures. Our expert engineers specialize in adapting cooling systems to meet specific battery requirements while aligning with your budget.

How many kW / 600 kWh are in a Bess container?

BESS 10 ft container of 500 kW-600 kWh built by LFP battery cells with all

necessary safety features included. BESS 20 ft container of 1 MW – 1,2MWh built by LFP battery cells with all necessary safety features included. All of our systems are designed to seamlessly fit various environments and structures.

What is a Bess rack?

Rack holding the battery modules connected in series and the high-voltage control box (PDU) including the master BMS (BCU). All racks of the BESS are controlled, protected and managed by the multi- string controller BMS (BAU).
