Night Portable Power Bank

Overview

Which nitecore power bank is best?

As one of our favorite power banks, the Nitecore NB10000 Gen 3 makes a great all-around choice for almost anyone. Those who count every ounce and want the highest level of performance in a 10,000 mAh power bank will find that this one is hard to beat.

Which power bank is best for outdoor use?

If you plan to use your power bank for outdoor applications such as hunting, backpacking, and off-roading, we recommend one built to withstand rugged use. On this list, the Nestout 15,000mAh Outdoor Battery, Dark Energy Poseidon Pro 10200, and Wuben Lightok X3 Owl EDC Flashlight are all rated to withstand getting wet.

Do nitecore power banks have scratches?

Though some scratches became apparent after several weeks of carrying the bank around in a bag, the carbon fiber frame generally reduces and hides scratches. Nitecore power bank products have historically had a reputation for poor quality and durability, but this was not our experience.
