

## SolarInvert Energy Solutions

# North Korean companies producing energy storage batteries

## Overview

---

What makes Korea a successful battery recycling company?

Hans Eric Melin, managing director of Circular Energy Storage, a consultancy, said the Koreans' success lay in their close relationships with the battery cell makers and their aggressive waste sourcing activities. SeungEel and Sebit are undervalued compared with western battery recycling upstarts, said Melin.

What is battery Korea?

BATTERY KOREA will provide a variety of up-to-date information, including R&D strategies and recycling related to next-generation batteries, development status and commercialization strategies of high-performance batteries, innovative battery production and manufacturing techniques and safety enhancement, and battery management systems.

Which South Korean battery recycling companies have made strong stock market debuts?

Leading South Korean battery recycling companies have made strong stock market debuts as they target overseas expansion during a global scramble for metals in electric vehicles. Shares of SungEel HiTech and rival Sebit Chem have more than tripled since their listings in late July and early August, respectively.
