

SolarInvert Energy Solutions

Outdoor portable three-phase mobile power supply

Overview

What is a 3 phase portable power station?

Three phase portable power stations supply emergency and temporary three-phase power and ground fault protection for indoor or outdoor applications. They feature heavy-duty NEMA 3R enclosures with clear breaker panel windows and automatic GFCI reset. Loading. Note: Product availability is real-time basis and adjusted continuously.

What is a power center & portable power station?

Power centers and portable power stations act as a combination transformer and distribution panel to regulate and distribute power from a generator, temporary power pole, or other 480V AC power source. They are suitable for indoor or outdoor use and provide ground fault circuit interrupters (GFCIs) to help protect against electrical shock.

Are Lex portable power distribution boxes waterproof?

Lex products portable power distribution units have NEMA 3R, 3R Weather Resistant or 3R Rainproof environmental ratings depending on the distro box. The indoor distro boxes have a NEMA 1 Indoor environmental rating, like the versatile 100 amp 3 phase PowerHOUSE™ Pagoda portable distribution box.

What is a portable power distribution rack?

This portable power distribution rack is engineered with a compact, space-saving design ideal for in-use operation, transport, and storage. Built for rugged durability and certified to cULus standards, this combo rack is an all-in-one solution for dynamic, temporary applications.

What are load master TM series portable power distribution boxes?

Load Master™ Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads. These temporary power distribution boxes feature 1, 3 or 4

adjustable circuit breakers, with a range of amperage and voltage ratings.
