

## SolarInvert Energy Solutions

# PV double-glass solar panel curvature

## Overview

---

Double-glass solar modules are made up of two layers of tempered glass that cover both sides of the solar panel. As snow accumulates on a typical solar panel or people stomp on it (during installation), the solar cells bend dramatically, resulting in microcracks on the cells.

## PV double-glass solar panel curvature

---

### What are Double Glass Solar Panels?

Double-glass solar modules are made up of two layers of tempered glass that cover both sides of the solar panel. As snow accumulates on a typical solar panel or people ...
