

## SolarInvert Energy Solutions

# Peak shaving energy storage solution

## Overview

---

The primary tool for achieving peak shaving in homes and businesses is energy storage systems. These systems, often in the form of batteries, allow users to store electricity when demand is low (during off-peak hours) and use it when demand is high (during peak hours).

### What is Peak Shaving?

Peak shaving is the practice of lowering power usage during periods of peak demand on the electrical grid. It involves temporarily reducing energy ...
